For background: Timmy was diagnosed with advanced Burkitt's lymphoma, a form of non-Hodgkin's lymphoma, in October 2008. During his time at Children's Hospital for treatment, Timmy spent time on both the surgical and oncology floors. Because of the extraordinary care and focus on making his stay as comfortable and normal as possible, the Creamer family wanted to give back to Children's and organized this annual event to help ensure that the thousands of other children who are patients at the hospital are able to benefit from the same treatment he received.
